

North British Distillery Company Ltd.

Job Opportunity

Project Engineer

Based at the Distillery on Wheatfield Road, Edinburgh

Succession planning in the Technical Department has created the opportunity for an experienced Project Engineer with a focus on the implementation and commissioning of a range of CAPEX projects.

Reporting to the Technical Director, the key responsibilities for this role include:

- Implementing CAPEX projects and installing to relevant HSE legislation.
- Leading and planning project implementation within a production environment
- Management, co-ordination and control of contractors.
- Review of Risk Assessments and Method Statements and preparation of Permits to Work.
- Developing techniques for assessment and monitoring of CAPEX contracts and contractors.

To succeed in this role, the following qualifications, skills and attributes are required:

- Experienced Mechanical Engineer
- Excellent knowledge of HSE legislation relating to construction and commissioning of projects with particular emphasis on CDM.
- A “Hands On” approach to project delivery with the emphasis on installation and commissioning.
- Good leadership and interpersonal skills with the ability to work closely with external Contractors to ensure all installation work is properly planned and coordinated.
- Previous experience of delivering projects in a production environment is desirable
- Proficient in all Microsoft Office applications, particularly Excel
- Excellent communication skills, with a customer-focused approach
- Strong planning and organisational skills, with the ability to adapt to changing business needs
- Applies an engaging, proactive and motivated approach
- Pays attention to detail and takes pride in delivering a professional standard of work

If you would like to be considered for this role, please forward your CV and covering letter via email to Jenny McCusker (jenny.mccusker@northbritish.co.uk) in the first instance.

Closing date for applications is Friday 15th September 2017.
